192 Putnam Street, Paterson, Passaic County, New Jersey

NJDEP Case No. 97-11-28-1523-44

Ransom Project No. 030175

Mr. Caltagirone:

Enclosed please find the completed application to discharge wastewater and the application fee of \$750.00 for the above-referenced site. As discussed in the January 27, 2006 correspondence submitted to Mr. Anthony Gammaro of the PVSC, the Site is currently under remediation with the oversight of the New Jersey Department of Environmental Protection (NJDEP Case No. 97-11-28-1523-44) for a release of No. 4 oil from two (2) former 10,000-gallon underground storage tanks (USTs). As part of this remediation, a groundwater treatment system is planned for the Site. The purpose of this application is to obtain a Letter of Authorization for a Sewer Use Permit from PVSC for the discharge of treated groundwater from the proposed groundwater treatment system into the sanitary sewer line located south of the Site on Warren Street. The attached figures depict the locations of the proposed groundwater treatment system, groundwater recovery wells, treatment system flow meter, treatment system sampling port, and the locations of the proposed sewer connections. The Site sewer line will discharge to the municipal/PVSC sewer line approximately 145 feet west of the intersection of Warren Street and East 16th Street. Please contact me at 609-584-0090 should you have any questions.

Sincerely,

RANSOM ENVIRONMENTAL

Brian Leuner
